Benakeio Preschool was established in 1926 by Emmanuel and Virginia Benaki in Kifissia and is part of a number of philanthropic non-profitable private institutions such as Athens College, the Benaki Museum and many more.

Our school's main concern is to aid working parents in their children's upbringing and to offer a safe, caring and loving environment.

Today, it is a modern pre-school educational unit with excellent infrastructure that carries on its founders' dreams, with social sensitivity, ensuring equal chances to all children through its scholarship program.

Our main priority, apart from the development of happy and responsible children, is the cultivation and teaching of human values so that our little ones may acquire the sense of solidarity, the meaning of social contribution and volunteerism; values which have represented and characterized us throughout all these years.

We are explorers of our world and we...

Seek and build knowledge

Hypothesize and suggest

Learn through experiments

Become creative

Come to conclusions that are never absolute

We like making mistakes because this is how we learn

We love to play, play, play.

English department

“Play is the highest form of learning”

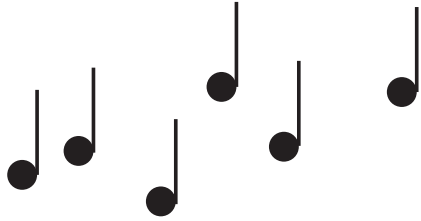

We, in the English Department at Benakeio fully embrace this quote. Working as a team we always strive to find new and exciting ways to teach English through interaction and creative activities that promote understanding and communication on a daily basis. This enables the children in developing a positive attitude towards learning a new language, and to spontaneously communicate in English.
